

Booking Alert

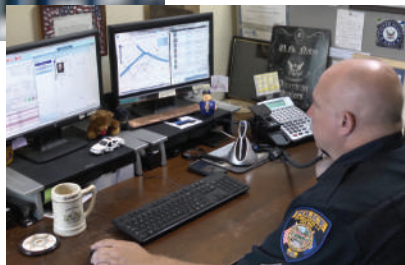

Be Aware That An Offender Has Been Arrested

OffenderWatch® Booking Alert dramatically extends your OffenderWatch® application to jails across America. Booking Alert automatically notifies you when one of your registered offenders is booked into jail anywhere in the United States.

Immediate notification of bookings: Booking Alert immediately notifies your designated SORT officer by email when one of your offenders is booked or released anywhere in the country.

Save time searching or starting prosecution: Stop searching for missing offenders or creating warrants and starting prosecution for registration violations of offenders who are incarcerated somewhere.

Automatic cross referencing: Booking Alerts automatically registers your agency's OffenderWatch sex offenders each day in the nationwide APPRISS OffenderNet.

“The offender did not show up for verification, so I started searching. I was about to start on a warrant for non-compliance and send officers out when I got a booking alert. The offender was arrested in another state. Booking Alert saved us a lot of time and effort.”

Adam Kirhagis -
Baltimore MD Police
Department

OffenderWatch® Booking Alert saves time searching for offenders who are incarcerated anywhere in the U.S.
