

With over 4 million notification post cards sent annually, OffenderWatch® is the leader in community notification.

Mail Service

There Is No Better Way To Notify Your Citizens

The OffenderWatch® Mail Service is a convenient tool built in to OffenderWatch® that allows your agency, by a single click, to order a notification mailing to all US Postal residents within an agency defined radius, assuring 100% coverage.

Saves your time: With one click, all residents and special recipients are selected to receive a professional, agency-personalized, large format notification mailer.

Saves officer time: Reach all of your citizens within the specified radius of the offender address without printing or going door-to-door.

Saves Money: Everything is included for just the cost of a first class stamp. We leverage our partnership with the OffenderWatch® Initiative to provide the lowest postage cost, list rental for your zip codes, printing of a high quality mailer, bundling and delivery to the post office, and full database updates.

In the mail in 48 hours: Your personal-ized notification card is provided to the post office for delivery within 48hrs.

Keeps a comprehensive history: All offender and recipient details are logged into a database for future reference.
